Python 3 (ipykernel)
if server_thread is not None and server_thread.is_alive():
print("Server is already running.")
else:
Define host and port
server_host = "0.0.0.0"
server_port = 10001
Create and start the thread
server_thread = threading.Thread(target=main, args=(server_host, server_port))
server_thread.daemon = True # Allows the main program to exit even if the thread is still running
server_thread.start()
print(f"Server thread started. Waiting a moment for server to initialize on http://{server_host}:{server_port}")
time.sleep(5) # Give it a few seconds to boot up
INFO:__main__:Starting server on 0.0.0.0:10001
Server thread started. Waiting a moment for server to initialize on http://0.0.0.0:10001
INFO: Started server process [226]
INFO: Waiting for application startup.
INFO: Application startup complete.
INFO: Uvicorn running on http://0.0.0.0:10001 (Press CTRL+C to quit)
Step 6: Test the Burger Seller Agent
Now we can send a sample request to the Burger Agent endpoint and check that:
A well-structured response is returned
The agent offers burger deals
This confirms the agent is running properly.
[ ]:
agent = BurgerSellerAgent()

Types of Success
1. **Financial Success**: Reaching a certain level of wealth or stability, often tied to career advancement and business success.
2. **Personal Success**: Achieving personal goals, such as completing a challenging activity, mastering a skill, or overcoming personal challenges.
3. **Professional Success**: Achieving high levels of performance in a career, often defined by promotion, recognition, and achievement of professional milestones.
4. **Social Success**: Forming strong social connections and relationships, contributing positively to the community, and enjoying social approval.
5. **Health and Wellness Success**: Achieving and maintaining good physical and mental health.
6. **Educational Success**: Completing educational milestones, such as graduating or earning a degree.
7. **Creative Success**: Achieving recognition or success in artistic or creative endeavors.
Factors Contributing to Success
1. **Hard Work and Dedication**: Putting in the effort required to achieve goals.
2. **Vision and Goal Setting**: Clearly defining what success looks like and setting specific, achievable goals.
3. **Positive Mindset**: Maintaining a positive attitude, resilience, and determination.
4. **Adaptability and Flexibility**: Being open to change and adapting to new situations.
5. **Learning from Failure**: Using setbacks as opportunities to learn and grow.
6. **Seeking Support**: Surrounding oneself with supportive people who can offer guidance, encouragement, and resources.
7. **Continuous Learning**: Staying updated with the latest knowledge and skills in one's field.
Achieving Success
- **Identify Your Values**: Understand what success means to you and align your goals with those values.
- **Set Achievable Goals**: Break down larger goals into smaller, manageable steps.
- **Create a Plan**: Develop a strategy for achieving your goals, including timelines and resources needed.
- **Monitor Progress**: Regularly assess how you're doing and adjust your plan as necessary.
- **Stay Flexible**: Be prepared to adapt to changes or new opportunities.
- **Learn from Mistakes**: View failures and setbacks as opportunities for growth and learning.
Success is a journey rather than a destination. It requires ongoing effort, learning, and adaptability. What constitutes success can vary widely from person to person, making it a deeply personal and subjective concept.
